

Everleap - The Question Bank

Everleap — the question bank

Every question the app can ask, with its answer options. Generated straight from the database on 2026-07-20.

This is the question bank, not anyone’s answers. No personal data appears here.

What’s actually asked

The `questions` table holds **112** rows, but the Story flow only serves **51** of them. The rest are filtered out — wrong source sheet, or written for a Parent/Counselor audience rather than the student. That filter lives in one place, `apps/everleap-api/src/lib/story/storyPool.ts`, and this document applies the same rule.

Family	Questions served
misc	1
motivations	19
skills	19
strengths	12
Total	51

Worth knowing: family sizes are uneven — Strengths has twelve. Anything that assumes a uniform count per family will be wrong, which is how a batch of badges once became mathematically unwinnable.

Questions the Story flow serves

misc — 1 question

How well do you adapt to changes in your environment or tasks?

`story_misc_52_baafbd8c` · type: `single_select` · weight: 50

Option	Label	Description
<code>beginner_maybe_i_could_adjust_to_minor_changes_in_routine</code>	Beginner: Maybe I could adjust to minor changes in routine
